Rock Update: Version 9.4
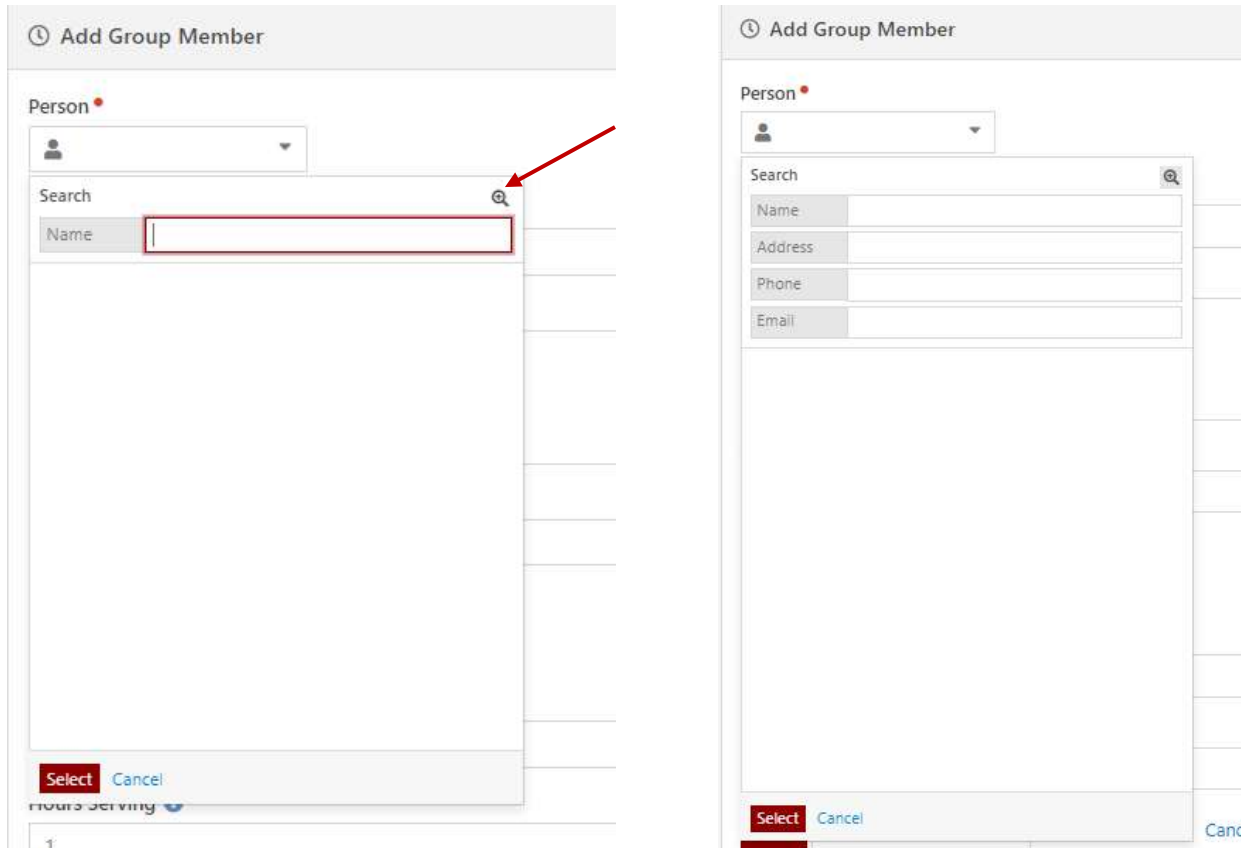

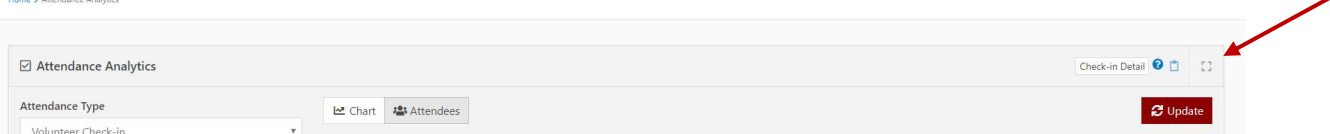

Feature changes

1. GENERAL - Added ability to search by address, phone, and email.
    a. When you add a new group member or try to search for someone in attendance check-in details, you will be able to search for people by name, phone, email or address!
    b. Click the magnifying glass in the upper right corner to get further options
    c. Fill-in the ONE field that you have for the person.

2. GENERAL - SMS Conversations – this only affects a few people. If you are one of them you will receive more information from Jason Jones.

3. GENERAL - Export updates!
    a. When exporting grids, date fields will now be date fields in Excel as well!
    b. You will now be able to highlight cells without converting the file in any way.

4. GENERAL - You'll notice a new button on Attendance Analytics. This will allow you to go full screen for these pages.

5. GENERAL - When someone is marked as inactive because they are deceased the system will ask for a deceased date.

6. CONNECTIONS - On the connections page, if you are pulling up the list of all connections the last activity column will now sort by timeframe instead of by name of activity.

7. FINANCE – You can now filter batches by source type.

8. FINANCE – Updates to Check Scanning – New version to be installed on November 20th or November 27th.

9. GROUPS – Group leaders will now have the ability to update/edit their group's capacity.

10. GROUPS – If someone registers for more than 1 group, all group leaders will be notified.

11. GROUPS – Leaders will now be informed when members have been absent for consecutive number of meetings.

12. GROUPS - Group members will be made INACTIVE when the group is made INACTIVE. If a group is made ACTIVE again, all members that were ACTIVE when the group was made INACTIVE will be ACTIVE again, those that were already inactive, will remain INACTIVE.

13. REGISTRATIONS - You can now sort an event registration by "registered by". This makes it much easier to search if you are looking for someone specific or looking for duplicate registrations.
